RE: I-5 Columbia River Crossing Study

Dear Doug and Rob:

Enclosed is our invoice for expenses incurred in January 2006 for the I-5 Columbia River Crossing Study.

If you have any questions, please call me at 360-397-6067 Ext. 5210.

Sincerely,

Patty Raedy  
Accountant

OK to pay.

**RTC COLUMBIA RIVER CROSSING PROJECT  
PROGRESS REPORT  
SOUTHWEST WASHINGTON REGIONAL TRANSPORTATION COUNCIL  
February 2006**

**Key Activities**

Management and Administration

Attended and contributed in PDT and other management group meetings to provide feedback to project team and also provide input regarding issues and concerns of project sponsors and the setting of the SASS agenda. Attended CRC Task Force meeting.

Planned and managed FTA/FHWA conference calls in February. Coordinated with Tri-Met and other project team members to set agenda and prepare for teleconference.

Met with RTC management and other staff for briefing on project status and emerging issues to be addressed by the project sponsor agencies.

Transportation and Transit

Participated in and provided feedback to CRC staff at the Transit and Modeling work group meetings.

Conducted initial review of New and Small Starts rules to assess if the CRC project should develop combined response to proposed changes and discussed with Tri-Met.

Set up and held meetings with C-TRAN staff to review 2030 MTP transit networks assumptions. Result of meeting identified specific network, transit line, itinerary and headway changes needed to build and code the 2030 No Build transit network for CRC. Began preparation of non-network model inputs for the travel forecast to forward to Metro. Transit coding for C-TRAN 2030 No Build completed and forwarded to Metro. Employment data for Clark County prepared and forwarded to Metro.

Participated in discussion with CRC project staff to determine level of effort and analysis level needed to assess river-crossing components outside the BIA. Coordinated with project staff on Step A and B screening process including the Step A component workshop.

Continued coordination with Metro and Clark County staff to develop updated 2030 land use assumptions to be used for the analysis of alternative packages for Phase I of the CRC project.

Developed draft outline to identify transit support elements outside the BIA, known as the Special Technical Study #3. Met with project and C-TRAN staff to refine and finalize outline and review technical work to date by project staff.

Met with City of Vancouver staff regarding the scope and draft outline of Special Technical Study #1: Feasibility Analysis for Terminal LRT/BRT Station within the BIA. Meeting was to prepare coordinated feedback to the project team regarding technical and policy issues to consider in the analysis.

Environmental

Participated in the InterCEP group meeting and discussion.

Began review of the Methods and Data Reports prepared by the project team in preparation for providing comments. Briefed RTC staff on environmental and other issues being addressed by the project to prepare for wider staff involvement in the Environmental Work Group.

**RTC COLUMBIA RIVER CROSSING PROJECT  
PROGRESS REPORT  
SOUTHWEST WASHINGTON REGIONAL TRANSPORTATION COUNCIL  
JANUARY 2006**

**Key Activities**

Management and Administration

Attended and contributed in PDT and other management group meetings to provide feedback to project team and input regarding issues and concerns of project sponsors and setting of the SASS agenda.

Planned and managed FTA/FHWA conference calls in January. Coordinated with Tri-Met and other project team members to set agenda and prepare for teleconference.

Met with RTC management and other staff for briefing on project status and emerging issues to be addressed by the project sponsor agencies.

Transportation and Transit

Participated in and provided feedback to CRC transit staff during the Transit Design Workshop, which included the narrowing of transit design options and development of transit components for screening.

Final review and editing of CRC Modeling White paper, including adding new sections on 2005 base year networks and the 2030 land use approach to prepare for forwarding to FTA/FHWA.

Coordinated with Transportation/Transit Modeling Workgroup and Metro to develop or identify base year model inputs to the travel forecasting model. Inputs included fare assumptions, parking costs, transit coverage, household information, and employment data by type. RTC staff coordinated internally and with C-TRAN to review and code Clark County base year highway and transit networks and to initiate preparation of the 2030 No Build highway and transit networks.

Met with CRC project staff to discuss and provide feedback on Step A and Step B analysis process and screening of components.

Based on new direction from the Bi-State Committee and the RTC Board, worked with Metro and Clark County staff to initiate review and development of updated 2030 land use assumptions to be used for Phase I alternative packaging analysis.

Met with project staff to discuss staff roles and approach for evaluating, screening, and identifying transit elements outside the BIA to support the transit components within BIA. Began development of an initial outline for technical memorandum.

Provided the CRC team with historical I-5 southbound HOV evaluation data, including travel time, occupancy, trip diversion, incident data, and transit patronage information.

Environmental

Participated in the InterCEP group meeting and discussion, including presentation to InterCEP on the project decision-making process and how InterCEP fits in.

Provided input to project team on the Methods and Data Reports being compiled. Briefed RTC staff on environmental and other issues being addressed by project to prepare for wider staff involvement in the Environmental Work Group.
